

Why the BEVI?

- Based on over 25 years of research, theory and practice
- Normed upon an international sample (N = 20,000+)
- Measures core aspects of identity and self (e.g., development, needs, emotions, values)
- Assesses how and why humans change (e.g., on self / other awareness, critical thinking)
- Very strong psychometrics (e.g., excellent reliability / validity)
- Institutions and organizations can manage their own data, analyses, and reports
- Shows within group variation (e.g., avoids the dilemma of aggregation)
- Mixed methods approach
- Welcomes and integrates other approaches to assessment
- Emphasizes longitudinal analyses
- Used to facilitate “engaged,” “high impact,” and “transformative” learning

How is the BEVI used?

What does the BEVI measure?

The BEVI...is designed to assess a number of relevant processes and constructs including (but not limited to): basic openness; receptivity to different cultures, religions, and social practices; the tendency (or not) to stereotype in particular ways; self and emotional awareness; and preferred but implicit strategies for making sense of why 'other' people and cultures 'do what they do'
